

Emmeti Stainless steel flue pipe

EMMETI

Construction

AISI 316 L stainless steel

Performance of stainless steel flue pipe

Compliant with standards UNI EN 1856-1 and UNI 1856-2

Meets the requirements of directive 89/106/EEC and subsequent modifications for the purposes of EC certification

Complies with AS 5601 and AG601 for Australia

Temperature level: T200

Pressure level: P1

Resistance to condensation: W (humid)

Resistance to corrosion: Vm

Specifications of internal wall: L50050 or L50080
